Abstract

Fake News Detection

Mahsa Ghaderan

Chair of the Supervisory Committee:

Professor Sauleh Eetemadi Main Guardian
Computer Science and Engineering

Insert abstract here.

Acknowledgements

I want to give my warmest thanks to my supervisor, professor Sauleh Etemadi, Who made this project possible. He fully supports me and guides me. He also led me in each stage of writing and doing this report.

Specially thanks to my mother, father, and my sister, who support me every single day of my life. They were motivating me in this way.

I am also thankful for my teammates and the friends Mr. Majid Zarharan, Mr. Mehdi Moghadami, Mr. Armin Gholami, and Miss Zahra Hosseini. They helped me to improve this project and giving me valuable advice.

Finally, Thank God for letting me through all these hard days and give me such power to finish this work. I keep trusting you for my future.

A.1 Table in the Appendix 27

Chapter 1

Background

This chapter typically includes:

- Establishes the context of the research
- Outlines the historical developments in the literature that led to the current topic of research concisely.
- Briefly highlight the main developments of their research topic and identify the main gaps that need to be addressed.
- Provide general information about the topic of the research and emphasize the main aims of the study.
- Summary of my interpretation of previous research and what my study proposes to accomplish.

Extra points:

- Only discuss the main and relevant aspects of the studies that have led to project aims.
- Build a story around the central theme of the research.

Chapter 2

Introduction

Introduction section

- a brief overview
- a challenges section
- a section about approach
- a road map of the rest of the thesis

Chapter 3

Fact Verification and Extraction

3.1 Literature Review

Overview previous works and papers.

3.2 Introduction

3.3 Experiments

ParsFEVER Code + Another paper codes and mutations on that code.

3.4 Results

3.5 Conclusion

Chapter 4

Stance Detection

4.1 Literature Review

Overview previous papers.

4.2 Introduction

4.3 Experiments

Stance on fake news detection papers and different experiments on embedding calculation + new versions.

4.4 Results

4.5 Conclusion

Chapter 5

Fake News

5.1 Literature Review

5.2 Introduction

5.3 Experiments

Ideas and works inorder to detect fake news.

5.4 Results

5.5 Conclusion

Chapter 6

Conclusion

Insert conclusion here. + Future works and ideas to continue this project.
